Leader.

Choose St. Lawrence

CEGEP Champlain —St. Lawrence is the only English public Cegep in the Quebec City region. We are a small college where students enjoy personal attention from faculty, advisers and staff. This personalization creates a strong sense of community.

Choisis St. Lawrence

CEGEP Champlain – St. Lawrence est le seul cégep anglophone public dans la région de Québec. Nous offrons une approche pédagogique personnalisée et nos étudiants développent rapidement un fort sentiment de communauté.

The St. Lawrence Experience

- + Our classes have an **average of 26 students**; we know our students well. Our professors offer plenty of availability outside of their teaching hours.
- + We offer **professor-led workshops in several disciplines** and a well-established peer tutoring program.
- + Thanks to this focus on their needs, **our students stand out for their academic results**. Last fall, more than **30% of students appeared on either the Dean's List** (for an average of 90% or higher) or on the honour roll (for an average between 85% and 89.9%).
- + **More than 70%** of our students come from francophone high schools.

Success for All

Your R score is a reflection of your grades and can affect your admission to some university programs. If you want a strong R score, choose a college where you'll be and do your best.

R scores (cote de rendement au collégial) at St. Lawrence for the last 5 years:

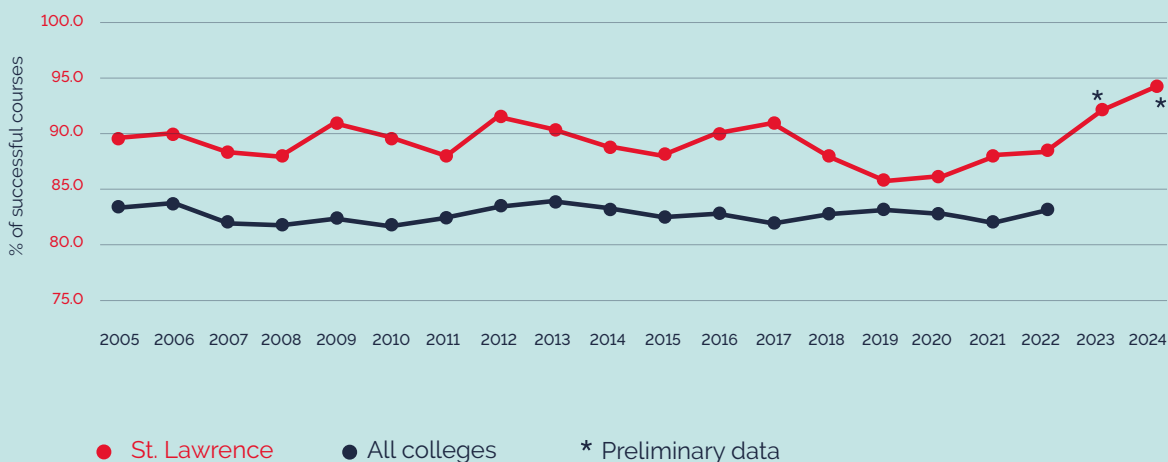

Our graduates' R scores:

- + 70 % **≥ 28**
- + 51 % **≥ 30**
- + 13 % **≥ 34**

Comparison with the R scores of students admitted to Quebec universities:

- + Average among St. Lawrence graduates (highest in the region): **31.1**
- + Average in the Capitale-Nationale region: **28.6**
- + All colleges: **28.7**

First Semester Success Rate

Une expérience unique

- * Nos groupes-classes sont de **26 étudiants en moyenne**; nous connaissons bien nos étudiants. Nos professeurs offrent une grande disponibilité à l'extérieur de leurs heures d'enseignement.
- * Nous offrons des **ateliers d'aide animés par les professeurs dans plusieurs disciplines** et un système de tutorat des pairs bien établi.
- * Par une telle attention portée à leurs besoins, **les étudiants se démarquent, entre autres, par leurs résultats académiques**. À l'automne dernier, plus de **30 % des étudiants ont figuré soit sur la liste d'honneur du doyen** (pour une moyenne de 90 % ou plus), ou sur la liste honorifique (pour des moyennes se situant entre 85 % et 89,9 %).
- * **Plus de 70 %** de nos étudiants proviennent d'écoles secondaires francophones.

Votre réussite est la nôtre

La cote R à St. Lawrence (cote de rendement au collégial) des 5 dernières années :

La cote R de nos diplômés :

- * 70 % **≥ 28**
- * 51 % **≥ 30**
- * 13 % **≥ 34**

Comparaison des cotes R des étudiants admis dans les universités du Québec :

- * Moyenne des diplômés de St. Lawrence (la plus élevée dans la région) : **31,1**
- * Moyenne de la Capitale-Nationale : **28,6**
- * Ensemble des collèges : **28,7**

Join a student group or club

Getting involved is a great way to facilitate your integration into College life.

As part of a desire to promote diversity, inclusivity, and student development, St. Lawrence offers a wide variety of socio-cultural and extracurricular activities. By joining our clubs and organized activities, you will make new friends, develop your passions and discover new talents.

Check out some of the things we offer:

- * Activités culturelles en français du RIASQ ex : Cégep en spectacle, Marathon d'écriture, intercollégial de théâtre
- * Art and Crafting Club
- * Eco St. Lo and hydroponic garden
- * ESports
- * Entrepreneurship Club
- * Fashion Show
- * Geeks and Gamers Club
- * Health and Wellness Club
- * Hema Quebec Blood Drive
- * French Improv Team
- * Intercultural Club
- * LGBTQ+ Club
- * Multimedia and Photography Club
- * Model UN
- * Proto St. Lo (STEM club)
- * SLC Radio
- * SLC Student Association
- * Student Newspaper – The Lion's Log
- * Theatre Troupe
- * Student Band - What the Heck

St. Lawrence is a proud member of several networks that offer French cultural activities for our students:

- * Association des clubs d'entrepreneurs étudiants du Québec (ACEE)
- * Québec City Intercollegiate Collaboration in Entrepreneurship
- * Projet d'éducation entrepreneuriale au collège (PEEC)
- * Réseau intercollégial des activités socioculturelles du Québec (RIASQ)

Want to add your flavour to St. Lawrence student life? We are always open to new ideas.

Be enterprising

St. Lawrence offers many opportunities for students to develop their entrepreneurial skills.

Entrepreneurship Club

The St. Lawrence Entrepreneurship Club (SLEC) is one of the most active and dynamic entrepreneurship clubs in the Cegep network. It seeks to complement theory presented in class with a more practical approach. Furthermore, St. Lawrence is a proud partner of many local and regional activities that promote entrepreneurship through the college network.

Kickstart SLC

Thinking of starting your own business? Have a great idea but don't know where to start? Kickstart SLC is a business start-up service that encourages, supports and helps students launch their own businesses while pursuing their studies. Students can get financial support and take advantage of a vast network of entrepreneurs and professionals who volunteer to mentor and guide. Take the first step and team up with Kickstart SLC!

Bloom Communications

Bloom is St. Lawrence's student-run marketing and communications agency. By joining Bloom, you can grow your network, build your resume, and earn some money in a fun and stimulating environment. Their goal is to provide high-quality services and bring a fresh and creative outlook to our clients' projects. Bloom is run by students with the help of experienced mentors.

Contests

Many contests are available for entrepreneurship projects, such as *Launch your Idea!* in November and *OSEntreprendre* in March. Students can apply in 2 different ways: innovation projects and business idea. All students can apply and winners receive bursaries.

Be part of the Lion Pride

St.Lawrence has a tradition of excellence in athletics. We take great pride in preparing student-athletes for a broad range of opportunities in academics and sports at the university level.

Our Mission

- ✦ St. Lawrence Lions sports teams are a source of great pride for the college. Our mission is to provide a high standard of play and development for athletes committed to achieving their true potential.

Our History

- ✦ For over 45 years, the SLC Lions Athletics program has given student-athletes the opportunity to reach their potential in both academic and athletic realms, in college and at university. Among the program's objectives is the importance placed on developing Leaders: academically, personally, and athletically.
- ✦ Over 150 athletes wear our team colours each year – over 20% of the student population is involved with one of our varsity teams. St. Lawrence is a proud member of the Réseau du sport étudiant du Québec (RSEQ), and the Canadian Collegiate Athletic Association (CCAA).

Our Values

- ✦ By joining our Lions sports program, you will develop skills to help you succeed in life, such as autonomy, teamwork, accountability, and respect. Through sports, we want to promote the values of commitment, pride, fun, and achievement.

Our Teams This Year

WOMEN'S TEAMS:

- ✦ Basketball Division 2
- ✦ Basketball Division 3
- ✦ Cross-Country
- ✦ Golf
- ✦ Soccer Division 2
- ✦ Tennis
- ✦ Volleyball Division 2

MEN'S TEAMS:

- ✦ Basketball Division 2
- ✦ Cross-Country
- ✦ Golf
- ✦ Hockey Division 1
- ✦ Tennis

Join the winning team!

We are the reigning champions in both women's D2 basketball and men's D1 hockey at the provincial level.

Student Life

Teamwork

Plan your studies

We have a variety of regular day programs leading to a Diploma of College Studies (DEC):

Pre-University programs (two years)

- + Science program
- + Social Science program
- + Arts, Literature and Communication program (ALC)

Pre-University double DEC's (three years)

- + Double DEC in Science + Social Science
- + Double DEC in Science + Arts, Literature and Communication (ALC)
- + Double DEC in Social Science + Arts, Literature and Communication (ALC)

Career programs (three years)

- + P.W. Sims Business program
- + Tourism program (bilingual joint program with Cegep Limoilou)

DEC Pathway (Transitional Semester Leading to a DEC Program)

More information on our programs is available on our website at slc.qc.ca.

Impact of Law 14 on French language in English colleges

If you are eligible to attend English school under the Charter of the French language and are in possession of a certificate granted by the Ministry of Education, you are considered a Certificate Holder. As of Fall 2024, your course sequence will depend on which of the following groups you fall into:

1. Certificate Holders
2. Certificate Holders who are proficient in French
3. Non-Certificate Holders

For detailed course sequences, visit the program pages on our website.

General Education Courses

Students in regular day programs leading to a DEC in the province of Quebec take general education courses common to all programs. During Cégep, students take English, French, Humanities, Physical Education, and complementary courses outside the student's field of study. The number of courses of each type depends on the student's status with regards to Law 14.

St. Lawrence offers many types of physical education and complementary courses. You're sure to find one that catches your eye.

Complementary Courses

Your choices will vary, based on your program and on what is offered each semester, but some of your choices may include:

- + Art : Peinture
- + The Art of the Bonsai
- + Computers Today
- + Creative Writing
- + CSI St. Lawrence (Crime Scene Investigation)
- + Cultural Experience Abroad: Trip to a Foreign Destination
- + History of Sexuality, Women and Family in the Western World
- + The Human Body
- + International Relations
- + Introduction to Indigenous Cultures
- + Introduction to Politics
- + Introduction to Sustainable Development
- + Journalism and New Media
- + Mental Health
- + The Science of Science Fiction
- + Spanish

Check out our website
for a comprehensive list.

Physical Education Courses

A wide range of physical activities and approaches is offered in our three Physical Education courses. The following activities have been offered in recent years :

- + Athletic Excellence (for elite athletes)
- + Badminton
- + Basketball
- + Cross-Country Running
- + General Fitness
- + Golf
- + Mountain Biking
- + Personal Fitness
- + Soccer
- + Spinning
- + Stress Management
- + Team Sports
- + Ultimate Frisbee
- + Volleyball
- + Winter Camping
- + Winter Outdoor Sports
- + Yoga

Patrick Savard
Arts, Literature and Communication
and English teacher

Stay on track

Arts, Literature & Communication Program

In the ALC Program's Multidisciplinary Option, you will explore the themes of Culture, Creation, and Expression.

Your studies

Explore a diversity of fields within the classroom:

- + Develop proficiency in Spanish
- + Master both written and spoken English and French
- + Gain insight into national cultural issues from both English and French perspectives
- + Acquire confidence and effective public-speaking skills in large and small groups
- + Develop advanced academic research skills
- + Develop critical thinking through the study of Western culture and pop fiction
- + Explore the creative process through experiential learning

Carry your learning far beyond the walls of the college:

- + Establish personal networks by meeting key people from universities, colleges, and the arts world
- + Benefit from cultural field trips in the Quebec City area
- + Enjoy dynamic and unique guest lectures by authors and artists
- + Join a tight-knit community of like-minded people
- + Form lifelong memories and friendships through exchanges, student trips, and ALC get-togethers

Your future

Your studies can lead to a wide range of fields and careers, including:

- + Education at the elementary or secondary levels
- + Teaching English as a Second Language (ESL)
- + International relations
- + Public relations
- + Communication studies
- + Journalism and broadcast media
- + Law
- + Translation
- + Creative writing
- + Professional writing
- + Linguistics and languages
- + Literary studies
- + English studies
- + French studies
- + Hispanic studies

Want to apply?

You must satisfy the college general admission requirements.

Aya Diwane
Pure & Applied Science student

Run the show

200.B1 Science Program

Our Science program prepares you for success in scientific and other fields at the university level. During your studies, you will have the opportunity to study with highly qualified faculty and work in well-equipped laboratory facilities.

Your future

Your studies can lead to a wide range of study opportunities and careers, including:

Health Science

- + Audiology
- + Dentistry
- + Kinesiology
- + Medicine
- + Microbiology
- + Nursing
- + Nutrition
- + Occupational Therapy
- + Optometry
- + Pharmacy
- + Physiotherapy
- + Veterinary Medicine

Pure & Applied Science

- + Actuarial Sciences
- + Architecture
- + Biochemistry
- + Biology
- + Chemistry
- + Computer Science
- + Engineering
- + Geology
- + Geomatics
- + Mathematics
- + Physics

Your profiles

Your choice of profile depends on the admission requirements of the university program to which you wish to apply. All science students complete courses in biology, physics, linear algebra, and vector geometry.

200.B5 Health Science profile

This profile includes courses in human physiology and organic chemistry. It is intended for students who wish to pursue university studies in the health field, and allows them to complete the necessary prerequisites.

200.B6 Pure & Applied Science profile

This profile is oriented toward those who aim to continue their studies at university in a pure and applied program, or who wish to pursue a more general education in the sciences. It allows students a bit more freedom to explore disciplines of their choice, including such options as *Advanced Calculus* and *Astrophysics*.

Students must satisfy the college general admission requirements and have the following prerequisites:

- + TS 5 or SN 5 Math
- + Chemistry
- + Physics

Orléanne Halasz
Social Science student

Take pole position

Social Science Program

Our Social Science program allows you to study the many facets of humans, including our minds and bodies, as well as our interactions with each other and the world around us, both today and in the past.

Your studies

Your exploration of social science will be guided by highly qualified faculty from such disciplines as:

- + Administration
- + Economics
- + Geography
- + History
- + Political science
- + Psychology
- + Sociology

You can select your profile, courses and projects, to focus on areas of special interest to you. Flip the page to learn more about our six profiles.

We have advanced standing agreements for students who wish to pursue their BAC in sociology or political science at Université Laval.

Want to apply?

You must satisfy the college general admission requirements. If you choose the Commerce or the Mathematics profile, you must have the following prerequisite:

- + TS5 or SN5 Math

Your future

Your studies can lead to a wide range of academic opportunities and careers, including:

- + Business Administration
- + Commerce
- + Communications & Journalism
- + Counseling
- + Criminology
- + Economics
- + Education
- + Geography
- + History
- + Industrial Design
- + Industrial Relations
- + International Business
- + International Relations
- + Law
- + Political Science
- + Psychology
- + Social Work
- + Sociology
- + Tourism
- + Urban Studies

300.A1 Social Science program

Your profile

St. Lawrence offers six profiles leading to a DEC in Social Science. All profiles have common elements, but they differ in emphasis and admission requirements. To some extent, the profile that you choose will be determined by the university program that you wish to enter.

300.AD Discovery profile

This profile offers the widest variety of Social Science courses and the greatest flexibility. It is intended for students who wish to discover social sciences and explore their options.

300.AP Psychology, Society & Health profile

This profile places an emphasis on studies oriented toward the helping professions, such as psychology, social work, counselling and criminology. It includes courses in human biology and advanced quantitative methods, required for admission to psychology programs at Québec universities. Other courses specific to this profile are *Introduction to Sociology* and *Social Science and Health*, as well as a psycho-social second-year course.

300.AW World profile

This profile allows students to explore world issues. During their studies they are exposed to various social and cultural realities to prepare them for travel to a foreign destination as a final semester course. Other courses specific to this profile are *Introduction to Geography* and *Introduction to Politics*, as well as *Living in an Intercultural World*, a language complementary course, and a second-year course with an international perspective.

300.AJ Social Justice & Leadership profile

This profile focuses on issues of social justice, community engagement and leadership. An applied course in their final semester gets students involved in the community. Other courses specific to this profile are *Introduction to Sociology*, *Introduction to Politics* and a second-year course exploring social justice themes.

400.AM Discovery with Mathematics profile

Students who wish to explore a variety of social science disciplines while pursuing an interest in mathematics might consider the Mathematics profile. This profile increases the number of university programs available. Courses specific to this profile are *Differential Calculus*, *Integral Calculus*, *Linear Algebra* and *Vector Geometry*.

400.AC Commerce profile

This profile is aimed at students interested in the business world, commerce and economics, and ensures they obtain the prerequisites for university studies in business administration such as *Microeconomics* and the three mathematics courses. It also includes *Introduction to Business*. Students who would prefer to study many non-business fields before beginning university should consider this profile in the Social Science program. Students who would prefer to focus on business studies at CEGEP should consider our three-year P.W. Sims Business program.

All our profiles include the following seven mandatory courses:

- + *Successful Academic Methods (SAM)*
- + *Introduction to Global History*
- + *Introduction to Psychology*
- + *Introduction to Macroeconomics*
- + *Quantitative Analysis in the Social Sciences*
- + *Qualitative Methods in the Social Sciences*
- + *Integrative Activity (IA)*, to be taken in the last semester

Pre-University Double DEC

In addition to our regular programs and profiles, we offer three-year DEC's that allow you to combine two programs in one.

Why complete a Double DEC?

You might choose to complete a Double DEC because:

- + You are passionate about more than one field
- + You are considering a multidisciplinary program at the university level
- + You are interested in having access to a wider variety of program options after college
- + You completed your high school studies in French and want to spend an extra year polishing your English skills
- + You want extra time and information to help you choose a career

How does it work?

Each Double DEC has an average of fewer courses per semester than its component programs. In addition, students have an extra year (and more courses) to improve their English-language skills. This can be especially beneficial if your previous studies were completed in French.

There are no profiles in a Double DEC. However, you can tailor your choice of upper-level courses to fit your university plans.

Some courses that you will take during your double DEC will count for both programs. In your last semester, you will complete the comprehensive assessments for each program.

Want to apply?

You must satisfy the college general admission requirements, as well as the requirements for both component programs. Check out pages 18-23 for more information on admission to each program.

200.16 Science + ALC (Arts, Literature and Communication)

You can tailor your choice of upper-level Science courses to fit your university plans, much as students choose between the Health Science and Pure & Applied Science profiles in the regular Science program. Through the ALC portion of the program, you will study in English, French, and Spanish.

As in the regular ALC program, your course sequence will depend on whether you are ready for Spanish I or Spanish II. A course credit beyond Spanish II may also be given, depending on our assessment of your level.

> *Learn more*

200.12 Science + Social Science

For some careers, such as environmental law, a grounding in both the physical and social sciences may be especially useful. Interested in university studies in math or commerce? The math courses taken as part of the Science program course sequence meet the requirements of the Commerce and Math profiles in Social Science.

> *Learn more*

300.16 Social Science + ALC (Arts, Literature & Communication)

There are university programs such as international studies, where a broader perspective and more extensive grounding in both the social sciences and languages is better preparation for further academic work than either program alone.

Multimedia Club member

P.W. Sims Business program

Our career program was named to honour a well-respected Quebec City businessman, P.W. Sims, whose legacy finances activities to enrich students' learning experience.

Our program

Why should you consider a three-year program?

- + Students study business in-depth while at Cegep, taking more than 20 business-related courses in such areas as accounting, marketing, human resources management and international business.
- + Graduates have many options upon completing their DEC.
- + They can enter the workforce directly in a variety of business-related careers or they can continue their studies at university. Our students who have business training and are able to speak in English and French are in high demand with employers. St. Lawrence has DEC-BAC arrangements with several universities, so that graduates with strong academic results from their DEC program can complete a bachelor's degree at university more quickly.
- + The practical focus of this program includes classroom use of laptops (required at the start of first year), an information technology course each year, contact with local businesses, as well as two internships : one at the end of second year (for three weeks) and one at the end of third year (for six weeks).
- + Students who would prefer to also study non-business fields before beginning business studies at university should consider the Commerce profile of our Social Science program.

> *Learn more*

Want to apply?

You must satisfy the college general admission requirements. There are no Math prerequisites for entrance into the program. However, if you wish to pursue university studies, certain university programs can have two and even up to three additional math prerequisites. In this case, the academic advisor will help you plan your progression to include these additional math courses. These courses require TS 5 or SN 5 Math as a prerequisite and are not offered at our college.

410.GO P.W. Sims Business program

Your university studies:

While some of our students enter the workforce directly after completing their DEC, many others continue on to university.

For those with strong academic results, we have agreements with several universities to recognize courses in our program. Some universities provide our students with advanced standing, while others allow the transfer of up to 30 credits.

In recent years, we have had agreements with the following universities. Please note that as we are currently revising our DEC-BAC agreements, the following is subject to change:

- + Université du Québec à Trois-Rivières
- + Université du Québec à Rimouski
- + Université Laval
- + Bishops University
- + Concordia University
- + Griffith University (Australia)

Your future

Your studies can lead to a wide range of academic opportunities and careers, including :

- + Accounting
- + Communications
- + Data Analytics
- + Digital Media Management
- + Entrepreneurship, Business Start-Up
- + Event Management
- + Finance
- + Human Resource Management
- + Industrial Relations
- + International Business
- + Law (e.g. Commercial Law)
- + Marketing
- + Operations Management
- + Sales
- + Tourism

Anaëlle Gagnon
Tourism student

Break barriers

Tourism program

In partnership with :

This bilingual three-year career program offered by Cégep Limoilou in collaboration with St. Lawrence will allow you to build your skills in event management, the development of tourism services and products, and marketing.

Our program

This unique program offers many advantages :

- + A bilingual pathway that's unique in the province of Quebec
- + A strong focus on sustainable tourism
- + Teachers with broad experience in the tourism industry
- + A five-week internship in the final year of the program
- + Direct contact with the industry during all three years of the program, through a variety of volunteer opportunities, guest speakers, site visits and field trips
- + The opportunity to learn a third language
- + International summer internships available to all students through Cégep Limoilou's ATE Monde program
- + The possibility of an academic exchange in Belgium at the Haute École Charlemagne or in France at the Lycée Honoré-Romane d'Embrun
- + Promising careers after three years of studies (there is a shortage of qualified bilingual personnel in Tourism)
- + The opportunity to obtain a bachelors degree from Griffith University, located on the beautiful Gold Coast of Australia
- + The option of completing an accelerated training program leading to a permit to work as a licensed Quebec City tour guide

Your future

Your studies can lead to a wide range of careers, including :

- + Account Executive
- + Conference, special event, festival, trade show, or exhibition coordinator
- + Tour director
- + Tour planner or tour coordinator
- + Tourism development, marketing, or promotion agent
- + Visitor Services and information supervisor

Want to apply?

Admission to this program is handled through Cégep Limoilou, a member of the Service régional d'admission au collégial de Québec (SRACQ): cegeplimoilou.ca

You can find the course grid and apply online on the SRACQ.

Succeed with Us

St. Lawrence's new Student Success Plan shows our commitment to helping you achieve success in all areas, not just in the classroom. The plan focuses on four main areas:

ORIENTATION

1

Success Beyond Grades

Does your definition of success include winning the championship, volunteering more, or finally writing that poem? We recognize that your accomplishments reach far beyond your studies.

ORIENTATION

2

Monitoring Success College-Wide

We want to know what our students are achieving, and how. We're putting systems into place that will help us to better do that.

ORIENTATION

3

A College Full of Support

We strive to provide great academic support to students beyond the classroom, so everyone can achieve their full potential.

ORIENTATION

4

A Fruitful and Dynamic Pedagogical Life

The heart of the college is the classroom, so we're working harder than ever to make our classes richer and more rewarding.

Student Services

Our excellent Student Services are here to help you on your college journey.

Academic Advising

Academic Advisors can help with course registrations and schedule modifications. They also monitor your achievement and can offer suggestions to make things easier for you. If you're having difficulties, would like to be matched with a tutor, or are looking to learn new study skills, these are the people to ask.

Guidance Counselling

Our Guidance Counsellor is here to help you with your changing needs throughout your Cegep studies. She can help you reflect on your interests, values, and skills, and guide you as you make decisions about your academic trajectory and career path. She can also connect you with resources to explore the possibilities for your future.

Adapted Services

If you require accommodations or other assistance due to a learning disability, mental health issue, physical limitation, or other special need, Adapted Services is here to help. They can meet with you to assess your needs and provide individualized support to help you do your best.

Wellness Services

When you're struggling with family or relationship issues, questions of identity, or mental illness, you might want to meet with our Social Worker. She also manages projects that promote wellbeing at St. Lawrence, from pet therapy to the new Pathfinders program, where you can meet with upper-year students to ask any questions you might have about the College.

Elite Athlete Services

If you're training at least 8 hours per week in your sport off-campus, we have supports to help you do your best. This can include a reduced course load, excused absences, special registration priority, and access to an Athletic Excellence course (also available for our Division 1 Lions athletes). Our Academic Advisor will ensure you have the support you need to succeed at school and on the field.

081.06 DEC Pathway

The DEC Pathway is a transition semester for students who wish to have extra time and help in moving from high-school to college studies. The DEC Pathway is not a program itself, but it normally leads to a regular program in your second semester.

However, the DEC Pathway will include some of your required general education courses (English, French, Humanities or Physical Education) and often one or two of the concentration courses for the DEC you wish to eventually complete.

This option may be for you if you would be at greater risk of academic difficulty without the additional time and assistance. It is also available to applicants who need to complete prerequisite high school courses before being admitted to the DEC program of their choice. While St. Lawrence does not offer such courses directly, they may be completed through adult education at the secondary level on a part-time or full-time basis.

All St. Lawrence students also have access to the following services, detailed on page 33:

- + Student peer tutoring
- + Workshops covering various skills needed to succeed in college
- + Help Services (e.g., Guidance Counselling)

Be one of us

Our admissions are processed directly at St. Lawrence. We are not a member of the Service Régional d'admission au collégial de Québec (SRACQ). This means you can apply to both St. Lawrence and other Cégeps before choosing your college.

Here are the three steps to apply to one of our regular day programs:

1.

Complete the Online application form on our website and pay the application fees at slc.qc.ca before the following deadlines:

- + **March 1st** for the fall semester beginning in August (our application system is open from mid-January to March 1st)
- + **November 1st** for the winter semester beginning in January (our application system is open from mid-September to November 1st)

2.

Upload the required documents to the admission system by the date indicated in your application confirmation.

The required documents depend on your situation. Details will be available on your application confirmation.

3.

Complete the online *English Level Assessment*. If you are not graduating from an English high school, you will receive a link along with email instructions following your application.

This one-hour test allows us to ensure you are ready for college studies in English.

Where is St.Lawrence?

"St. Lawrence is more than a cégep—it's where I discovered my voice. Transitioning from a French high school, I was nervous about learning in English. But thanks to incredibly supportive teachers who welcomed every question, I adapted quickly and thrived. I went from being a student unsure of his place to someone who helped shape the community—whether by launching a TEDx conference, tutoring peers, or leading on the tennis court. Today, I am studying Industrial Engineering at the University of Toronto, and I know St. Lawrence played a huge role in helping me get there—equipped, confident, and ready to have an impact on the world."

Tristan Massicotte, 2025 Science graduate

"St. Lawrence gave me the space to grow, the people to believe in me, and the opportunities to truly shine. From supportive staff to inspiring teachers, I felt constantly uplifted. I discovered my voice, my strengths, and made memories I'll always treasure. It's an understatement to say St. Lawrence has been the best chapter of my life."

Bon Pham, 2025 Social Science graduate

"The average student gets to know the majority of the faculty during their time at the college, not something that can be said of every cégep. That's because we're small, but more than that, it's because the educators, organizers, and staff of St. Lawrence are so welcoming, dedicated, and invested in our success."

Dominic Gaumont, 2025 Science + Social Science graduate
